

Lightstone Auto Insights

Lightstone's most recent edition of Auto Insights (published in October 2021) features data that reveals that while tough conditions are affecting new vehicle sales, used vehicles are winning, and you can also take a look at the shift in vehicle bodyshape preferences over the past decade.

Lightstone's Auto Insights also includes regular features that report on new vehicle sales, LIVE scans and Signio volumes at the time of publication. [Read more](#)
